RE: TeamOutdoors "Living the Dream"

Dear Dan,

Thank you, thank you, thank you for a fantastic time on the Red. My only regret is that we couldn't have spent another day of fishing with you. I truly do not believe I could ever get tired of catching cats like that. You are an incredible guide and more importantly a great friend. I really hope we get the chance to come up again! If you think your friend that does the bear hunts would be interested in doing a show with us, please send me his information or have him get in touch with me as soon as he can so I can get it scheduled.

I've enclosed a copy of the show that Lonnie edited. It airs on OLN, Sportsman Channel, and our local Fox station. I hate watching it, though, because it just makes me want to be back up there.

I would seriously like to do the bear hunt and even come up for the walleye run, so let me know some dates and so forth. I will do everything I can to make it happen on our end.

Thanks again, Dan. It was a pleasure and an honor to meet you.

Take care,

David Bird
